Work

2009-2010

Nordisk Film (intern)

B-camera operator on the production
"Arga Snickaren"

2010-2012

Mediaprovider - Project manager

Led all video production for Mobil.se and Kamera & Bild, managing both editorial Web-TV shows and commercial gear presentations.

Oversaw the full production lifecycle for digital and print-integrated media.

Transformed complex tech news into digestible, high-quality video content for a enthusiast audience.

2012-2013

Abiliteam AB - Live Event Producer

Led the technical production of live-streamed municipal assemblies and public events for local TV and Web-TV.

Managed all on-site logistics, including the installation and operation of remote-controlled camera systems and live mixing consoles.

Ensured high-uptime broadcast stability for essential public sector communications across Sweden.

Faruk Berker Agun

Lead Product Designer

Work continued...

2012-2014

Nanushka - Founder / Producer

Spearheaded the creative development of award-winning documentary and reality programming for national television.

Award-winning producer recognized with the Kristallen award for Best Documentary, demonstrating a proven track record of critical and commercial success.

Managed full-scale production lifecycles for long-running series (Modellpojkar/flickor), coordinating crews and multi-platform distribution.

Executed high-end commercial productions, translating brand identities into compelling visual narratives for clients like Beckers.

2014-2024

Internet Global Services AB - Product designer

Transformed B2B product experiences for IGS, focusing on the end-to-end design of sophisticated Content Management Systems.

Managed design for a multi-brand ecosystem, creating adaptable UI components that catered to different visual identities while maintaining a unified core functionality.

Collaborated with cross-functional teams to localize digital products for diverse global markets, ensuring a seamless user experience across borders.

2024 -

Glitnor Sweden - Lead product designer

Oversee product design for 5 global brands, maintaining a high bar for visual excellence and usability across diverse digital platforms.

Utilizing user data and behavioral insights to drive iterative product improvements and feature development.

Directly manage the design team, responsible for hiring, professional development, and establishing modern design standards.

Drive strategic decision-making, translating high-level business goals into intuitive, user-centric product experiences.
